To avoid abandonment of the application, appellant must exercise one of the following two options:

- (1) file a reply under 37 CFR 1.111 (if this Office Action is non-final) or a reply under 37 CFR 1.113 (if this Office Action is final); or,
- (2) request reinstatement of the appeal.

If reinstatement of the appeal is requested, such request must be accompanied by a supplemental appeal brief, but no new amendments, affidavits (37 CFR 1.130, 1.131 or 1.132) or other evidence are permitted. See 37 CFR 1.193(b)(2).

***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Budike, Jr.(6122603A).

Claims 10-24: Budike, Jr. disclose providing a utility service to one or more users and measuring the usage and calculating the cost in real time for presentation to the user, whereby the communication link is an internet link(col. 7, lines 35-65, col. 8, lines 40-60, col. 10, lines 15-25, claim 1).

Budike, Jr. does not explicitly disclose wireless phone. However, wireless technology is old and well-known in the communications arts. Thus, it would have been obvious to one with an ordinary level of skill in the art to employ wireless technology to get the benefit of mobile internet access and metered pricing data. Further, wirelessly enabling a technology does not make it patentably distinct.
